

CENTRIFUGE TUBES - MATRICES MOLDS

Following is the list of the matrices for the realization of the tubes centrifuged.

The molds are long 500-600-700 mm according to the measures but can also be shortened.

Please consult our sales office for advice and to assess the minimum over metal required to get your finished processing measures.

Please note that we can provide tubes and centrifuged for rings larger than presented up to a diameter greater than 2 meters. These details can be provided to roughly shaped lathe.
